DAJUN GU

1900 SW 4th Avenue ◇ Portland, OR 97201

(111) · 111 · 1111 ◇ dajun.gu@pcc.edu

PROFILE

Computer science student with software engineering experience and computer system knowledge. Successfully implemented web page game and command line delivery system. Improved XV6 system based on PSU version. Strong writing skills, fluent in English, and expert in Chinese.

EDUCATION

Portland State University   *Fall 2017 - Summer 2020*
B.S. in Computer Science
Major GPA: 3.73   Overall GPA: 3.57

PROJECTS

XV6 System   Spring 2019
Developer

· Improved XV6 system based on PSU version.
· Created new system calls to represent system states and change processes information.
· Encouraged processes transfer algorithms, resulting in faster response time and avoid deadlock.

Space Hunt Game   Winter 2019
Developer

· Developed a web page game based on JavaScript.
· Saved or loaded previous data when close or open new web page.
· Customed game all settings in developer mode.
· Received notifications and showed current states.
· Contributed teamwork by testing codes and fixing bugs.

Delivery System   Spring 2018
Developer

· Developed a command line delivery system that solves multiple packages one time.
· Calculated the shortest route automatically for multiple different destination packages.
· Delivery packages by multiple methods, such as car, drone, and express.

EXPERIENCE

Chunyu Volunteers Association   Fall 2016 - Spring 2017
Volunteer   *Changchun, China*

· Encouraged older life by taking the daily necessities to the nursing home.
· Helped poor children by giving warm clothes.

STRENGTHS
